

Storage Centers

Smart storage, specialized solutions

The freedom of choice

Storage Centers is our most popular series, with customizable features and flexible elements designed to meet all your office storage needs. The most comprehensive filing system on the market, Storage Centers offer an enormous range of case sizes, configurations and colors. With so much choice, it's easy to put together a system that fits your space – and your style.

Seamless front edge detailing is complemented by ergonomically correct, full-width finger pulls, designed to match the enamel finish of the case and fronts.

Attention to detail, absolute quality

With a selection of 42 cabinet heights and 9 drawer sizes - all available in 1½" increments - plus a variety of options like individually locking drawers, adjustable-height shelves, stationery inserts and hinged door cabinets, we will create the storage solution that's exactly right for your needs.

There's a rainbow of color just waiting for you. In addition to a choice of 60 standard contemporary colors, Storage Centers can be painted any custom color to match your office and/or your existing system. You never have to settle for an uninspired, utilitarian-looking workspace again.

Complete flexibility

Designed to be combined, Storage Centers allow you to create custom storage walls that are functional and elegant. If your storage needs change, it's never a worry. Every unit can be changed to suit your new requirements; it's easy to retrofit them with different drawers and accessories.

Unique 1½" modular drawer construction provides the opportunity for significant space savings and specialized storage efficiency. Standard drawers are 12" deep, but standard files only require a 10½" height. That's 1½" of wasted space! Our system provides a 10½" drawer that's the perfect fit!

Fit 5 drawers instead of 4 into a standard height cabinet – it increases your filing capacity by 25% within the same floorspace.

Solutions that fit

Office Specialty's unique 1 1/2" vertical increment range provides the ultimate in efficient filing and storage flexibility.

3" drawer
store pencils, business cards, wallets, keys

6" drawer
great for video and audio tapes

15" drawer – EDP binders, books, manuals, oversized document storage

16 1/2" drawer – x-rays, oversized printouts, European binders

Storage Center pedestals come in 3 depths, 2 heights and letter or legal widths. It's easy to combine them with lateral cabinets or your existing office system. Units with castors give you freedom to move within and between work stations.

Pedestals. Combine several units into a customized credenza for an elegant, unified look.

Store it all

In addition to an unparalleled selection of cabinets and pedestals, we offer a number of other useful storage innovations. Adjustable-shelf bookcases with regular or sloped shelves let you store books, binders and more. And it's easy to be organized with specialized options like the SuperStor™ and mobile pedestals.

Superstor™ provides all the organizational benefits of a filing system without sacrificing instant access. Inserts are available in several sizes to accommodate forms, letterhead and other loose-leaf materials.

Sloped shelf units offer an attractive, practical display option for brochures and magazines. Lift the shelves for added storage; it's great for instant access to extra inventory.

Mobile pedestals are perfect for organizations where employees share work stations, or need to move around the office with everyday efficiency and ease.

The multi-unit lets you store two rows of binders or books and still have multiple file drawers, all in the same cabinet.

The open bookcase with adjustable shelves offers even more storage versatility. Store books, binders, journals, and magazines.

Storage Centers – choose your storage solution

Storage Centers deliver an unprecedented range of space-saving filing and storage solutions, guaranteed to enhance access to resources in any organization. Each cabinet exemplifies the quality and value that have made Office Specialty the office storage standard for over a century.
